PROPANE ACCESSORIES

PROPANE CYLINDERS

Do you have your OPD yet?

The Overfill Prevention Device (OPD) is a float-activated device designed to assist propane refilling to safe levels. To comply with new codes, most consumer-style propane cylinders need to be equipped with the OPD.

Your cylinder may need an OPD

- ★ All DOT cylinders sizes #4 to 40# require an OPD Valve before Filling. (Excluded are Forklift, Welding and Cutting Gas cylinders.)
- ★ Since April, 2002, all eligible cylinders require an OPD Valve before filling.
- ★ DOT re-certification of a cylinder is required 12 years after the date of original manufacture, then every, 5 years thereafter.
- ★ Re-certification is a routine mechanical inspection that makes sure all components of a cylinder are free from defective parts and/or contaminants.

How to tell if Your cylinder already has an OPD valve:

Scan for Current Price Page

PT-20
\$65.50 EA
20# Vertical

20 LB.
LPG Capacity 4.6 gal./17.4 ltrs
Water Capacity..... 47.7 lb./21.6 kg
Tare Weight..... 17.7 lb./80 kg
Cyl Volume..... 1318 cu in./21.6 ltrs
Collar Height 4 in./101.6 mm
Footing Dia..... 7.812 in./198.4 mm

101LP Strip Liquid Level Gauge
Accurate liquid level indicator for 4-1/4, 11, and 20 lb cylinders. Just press onto side of cylinder. Self-adhering and durable. Easy to read.
\$7.00 EA

How to Read Your Level Indicator

- Pour a glass of very hot water – with a temperature at least that of hot coffee to boiling – down the length of the strip.

The indicator strip will change color and then will quickly return to black on 1/2 of the strip to indicate the level of gas in the tank.

REGULATOR & HOSE ASSEMBLY
#225-90P-5 \$28.95 Ea

WARNING:
Chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm are created by the combustion of propane

Plumber's Pot Cylinders		
\$220.00 EA	20PLW	20# cylinders w/ plumber's pot valve with OPD (Not Shown)
60# Cylinders		
\$305.00 EA	60C	60# cap type, valve with fixed maximum liquid level gauge
\$245.00 EA	60HC	60# high collar, valve with fixed maximum liquid level gauge
100# Cylinders		
\$355.00 EA	100C	100# cap type, valve with fixed maximum liquid level gauge
\$335.00 EA	100HC-10	100# high collar, valve with fixed maximum liquid level gauge
\$365.00 EA	100HC-10M	100# high collar, multivalve
\$335.00 EA	100HC-10L	100# high collar, liquid withdrawal valve
200# & 420# Portable Cylinders		
\$850.00 EA	200HC	200# DOT cylinder w/ multivalve and gauge
\$895.00 EA	200HC-A	200# A.S.M.E container w/ multivalve, relief valve and gauge
\$1,050.00 EA	420HC	420# DOT cylinder w/ POL, filler valve, relief valve and gauge
\$1,121.00 EA	420HC-A	420# A.S.M.E container w/ POL, filler valve, relief valve, gauge
Lift Truck Cylinders (All lift truck cylinders have magnetic gauge.)		
\$340.00 EA	20MF10K	20# universal lift truck cylinder
\$350.00 EA	33MF10K	33# universal lift truck cylinder
\$370.00 EA	33MF10KS	33# universal lift truck cylinder with fast fill valve and male safety connector
\$360.00 EA	43MF10K	43# universal lift truck cylinder
\$380.00 EA	43MF10KS	43# universal lift truck cylinder with fast fill valve and male safety connector

DOT vs. A.S.M.E. Comparison

- ❖ DOT can be transported full, A.S.M.E. cannot be transported full it can only be filled at location.
- ❖ The weight of an A.S.M.E. 420# is 56 lbs. more than a DOT 420#. This thicker steel provides the customer greater longevity of the 420# assets.
- ❖ A.S.M.E. code does not mandate a retest period. DOT retest periods are 12 years after manufacturing, then each 5-year period thereafter.

Aluminum Lift Truck Cylinders

\$272.50 EA	20#U4	20# universal lift truck cylinder w/ magnetic level gauge
\$345.00 EA	33-1/2#U4	33-1/2 # universal lift truck cylinder w/ magnetic level gauge
\$395.00 EA	43-1/2#U4	43-1/2# universal lift truck cylinder w/ magnetic level gauge

\$84.00 SET TB-2 Set of two Horizontal Lift Truck Cylinder Brackets
\$103.00 SET Order TB-3 for Vertical 20# lift truck cylinder,
\$171.25 SET TB-20A for Vertical 33# cylinder.

TANK-FOOT
Stand a 20 lb cylinder in this tough, plastic ring and the cylinder won't tip over, even while traveling in the back of a pick-up. An efficient yet inexpensive safety device.
Order: TANK-FOOT \$12.95 EA
