

QUICK – CONNECTORS / BUTANE TORCHES & SOLDERING IRON

Scan for Current Price Page

Ideal for indoor/outdoor use. Its wind-resistant flame and waterproof ignition puts out a razor sharp blue flame. The unit runs off of a disposable butane fuel cell (included). It features a piezo electronic ignition with a safety lock. Its compact size and safety latch allows it to be carried anywhere or fit easily into your tool kit.

- Overall Dimensions: 4.6" x 2.9" x 105"
- Net weight: 2.9 oz
- Shipping Weight: 1 lbs.
- Flame Temp: 2,500° F / 1300°C
- 20 Minute run time

Micro Ultratorch
Part No. **MT-11**
\$18.50 EA

Butane Refill Master Ultratane™

- Triple-refined formula reduces clogging of filters
- Special vapor pressure promotes consistent ignition
- Contains no CFC's, canister with single-piece universal filling tip. Will not harm ozone layer.
- Recommended refill for Ultratorch®
- Use to fuel all Master butane-powered products

5 1/8 Oz Canister

Part No. 51773
\$8.95 EA

WARNING

The Department of Transportation Hazardous Material Regulations forbid carriage of butane or other flammable gas products on passenger aircraft. Do not pack this item or any other flammable gas item in any checked or carry-on baggage.

Users should independently evaluate the suitability of the product for their application.

Standard Self-Igniting Ultratorch®, Cordless Soldering Iron

It features a built-in piezo electronic starter for instant ignition anywhere – without matches

Part No. UT-100SI
\$114.50 EA

Professional quality, self-igniting, butane-powered soldering/heat tool

SPECIFICATIONS

- Dimensions: 10.3" L (260 mm)
- Recommended Fuel: Master Ultratane® Butane
- Approx. Operating Time: 120 min.
- Approx. Heat Tip Temp: 1202° F / 650° C (No Torch Mode)
- Approx. Solder Tip Temp: 482° F to 932° F (250° C to 500° C)

Standard with soldering tip, heat tip, spanner wrench, open end wrench, shrink attachment and protective cap
Built-in fuel filter for consistent fuel ignition
Adjustable temperature up to 1200°F
Built-in window indicates fuel level
Dual function soldering iron and heat tool
Use to pinpoint heat, remove surface mount components, repair vinyl, shrink heat shrink tubing, solder and desolder, spot dry, and more

- Equivalent to Electric Iron: 20 to 80 Watt
- Gas Tank Capacity: 1 fl. oz. (28 cc)
- Shipping Weight: 1 lb.
- Shipped Empty (Butane Not Included)

QUICK-CONNECTS – SETS & COMPONENTS

Western's Quick Connects provide fast, reliable and positive connections and quick disconnections for torches, hoses and regulators.

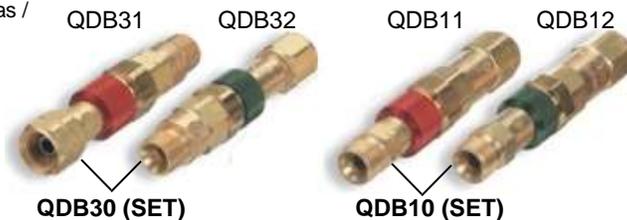

All models are color-coded for gas service for added safety (oxygen/green, fuel gas / red). Oxy / fuel gas models include integral reverse flow Check Valves. Quick Connects fit all B-size welding and cutting equipment.

FEATURES & SPECIFICATIONS

- Brass construction provides long service life– cycle tested over 10,000 operations indicating a service life of 10 to 12 years of comparable use
- Non-interchangeable Oxygen and Fuel Gas connectors prevent accidental gas mixing
- Instant closure on reverse flow Check Valves with total shutoff at only 10 oz. of back pressure
- Exceed CGA flow specifications–1100 SCFH flow at 125 PSIG inlet pressure and 800 SCFH flow at 125 PSIG inlet pressure when 2 additional check valves are used in conjunction with the Quick Connects
- Spring loaded locking mechanism responds to fingertip action and achieves a gas-tight connection
- See "MIG / TIG Accessories" for inert gas models
- Double seal socket connection on second seal provides added safety protection
- Installation and operating instructions included
