

**PORTABLE / OVENS**

**DryRod® II SERIES**

**Type 1  
Portable Electrode Oven**

7" W x 9" D x 24"H

**Type 2  
Portable Electrode Oven**

Use Carry Handle as a support when laying oven (Types 1 & 2 only) on its side

**DryRod® II Portable Electrode Ovens**

- Durable steel body.
- Even and continuous heat for 100% protection of electrodes (from unpacking to use).
- Standard features include an adjustable thermostat, 120/240 voltage selector switch & indicator light (n/a on Type 1 – preset temperature & 120 volt only).
- 1-1/2" Fiberglass insulation.
- Power Inlet - easily accommodate alternative cord sets.
- Digital thermometer (optional) reads in °F or °C (n/a on Type 1)
- Powder coat finish creates a "Tough as Nails" exterior coating.
- Safety yellow color promotes high visibility from a distance.
- Rod elevator in Type 1 & 2 easily extracts welding rods from oven.
- Wheels on Type 5 & 15A provide easy transport. Handle retracts for storage.
- Type 15B (not shown) is provided as a bench version (without wheels or handle but with storage shelves).
- Made in the USA.
