

# 6 x 9 Non-Woven Hand Pads

## Industry Application

- **Surface preparation** of metals, fiberglass, and woods
- **Stripping** paint and varnish
- **Blending** stainless steel or copper in food service applications
- **Industrial maintenance** and janitorial applications
- **"De-Fuzzing"** wood
- **Preparing** aircraft skin and metal work prior to painting
- **Clean up** interiors prior to final delivery in aircraft and automotive industries

## Features & Benefits

- **Flexible:** Can be bent or folded to conform to most shapes
- **Waterproof:** Non-rusting; can be used dry or with most solvents or water
- **Self-Dressing:** A constant new cutting surface is created as the pad is worn down
- **Versatility:** May be used in a variety of applications by hand or with oscillating "Jitter Bug" power sanders
