

# AIR TOOLS—PNEUMATIC / AIR ACCESSORIES

**Male In-Line Pipe Swivel** - Swivel action reduces amount of twisting and kinking of hose by allowing it to spin freely. In-line design allows full flow of air or water with limited back pressure. Brass construction provides resistance to water and chemical corrosion.

## MALE PIPE IN-LINE SWIVEL

<b>\$3.95 EA</b>		
NPT Male	NPT Female	ITEM No.
1/4"	1/4"	FS04

**Universal Swivel** - For use in (applications where maximum flexibility is required. Aluminum construction for light weight and corrosion resistance. Large porting reduces pressure drop through fitting. Two way swivel action allows work in cramped or overhead areas. This fitting also reduces stress on air hose by eliminating kinking and allowing hose to hang straight down.

**Universal Swivel with Valve** - Same features and construction as Universal swivel with flow control valve. Ideal for applications which require precise control of air flow.

# AIR TOOLS ACCESSORIES

## UNIVERSAL SWIVEL

#FS24  
**\$21.99 EA**

## UNIVERSAL SWIVEL WITH VALVE

#FS34  
**\$27.10 EA**

## INLINE OILER #7007

1/4" NPT inlet & outlet  
3 1/2" oz Weight  
Tool CFM Range 7-15  
**\$28.00 EA**

## POLYURETHANE RECOIL HOSE

**INTERSTATE** Polyurethane Coil Hoses are made from a special SUPER TOUGH compound and feature:

- HIGH KINK RESISTANCE - virtually undamaged by twisting or crushing
- EXTREME FLEXIBILITY - stretch 26% more than nylon hoses of the same length
- EXCELLENT COLD RESISTANCE to temperatures as low as -40°F
- SUPERB ABRASION RESISTANCE - 6 - 10 times more than nylon or rubber hose
- CHEMICAL RESISTANCE - gas, oil & ozone resistant
- MALE SWIVEL FITTINGS ON EACH END - include sleeve clamps which double as spring protectors.
- Provided with 8" supply end and 16" working end pigtails to keep the coils away from the tool.

## RUBBER AIR HOSE

**Rubber Air Hose** is made from top quality natural rubber compounds and is highly abrasion resistant. This fiber reinforced hose is resistant to the effects of oil, heat & ultra-violet light. Pre-cut lengths have solid brass fittings & ferrules. Bulk reels have no fittings.

## AIR TOOL OIL

**DO NOT USE ON OXYGEN**

**INTERSTATE** Air Tool Oil is an ISO grade 22 light turbine oil that is ideally suited for use in pneumatic tools and automatic air line lubricators. This oil features excellent oxidation stability for long life at elevated temperatures, resistance to foaming, stable viscosity over wide range temperatures, and superior rust protection.

Keep your tool and apparatus clean and well lubricated for a longer more efficient life

## STAINLESS STEEL WORM GEAR HOSE CLAMPS

**INTERSTATE** Stainless Steel Worm Gear Hose Clamps are ideal for temporary assembly and rapid field-type repair of hoses. Clamps have Stainless Steel bands with plated steel screws.

FOR BRASS HOSE CLAMPS SEE THE "GAS EQUIPMENT" SECTION
