GORILLA BAR™

THE SHAPE MAKES THE DIFFERENCE

4 PIECE PICK SET

#JPS1600C

\$6.95 EA

- Tempered Steel Straight, Hook, 90° and "O" Ring Picks
- Aluminum Handles

"LONG NEK" TOMAHAWKS

Here's what the new "Long Nek" tomahawks offer: 50% greater support for the handle • Protection of handle from splintering caused by working over an edge • Less chance of handles loosening in the head • Atlas wide-blade design that removes slag faster and adds to the life of the tool • Hand-fitted hickory handles • Balance and "feel" that welders agree make their job easier.

HICKORY HANDLE

ATLAS STAINLESS TOMAHAWKS®

Heads of stainless steel are pinned to steel shafts ... tough and no contamination stainless steel (420) forged heads conform to weld code requirements for food processing equipment, nuclear plants and other industries fabricating/welding stainless steel wood handle

MODEL	HEAD STYLE	Overall Length	Head length	Overall Weight
JSS	Cone & Chisel	10 1/2"	6 1/2"	14 oz.

Type 420 is a magnetic grade stainless

IMPROVED "Atlas" DUAL-TOOLS

Atlas "Dual-Tools" are much in use. They are most convenient as the brush is attached to the Tomahawk, and it's two tools in one-much like having the eraser fastened to the pencil.
