

HAND TOOLS – 90° Vise Clamp – Magnetic Support Jig – Anvil – Vise – Jaw Caps

90° Angle Vise Clamp \$99.90 EA

Order Number	Capacity Miter	Jaw Height	Jaw Length	Shipping Weight/Lbs.
AC-325	3 11/32"	1 3/8"	4 1/8"	8 1/2

Wilton 90° angle clamps take the set-up time and effort out of metalworking applications that involve holding material for right angle joining, assembling, welding or grinding. A self-centering jaw quickly adjusts to clamp work pieces, even accommodating pieces of different sizes. Speed, safety and accuracy are the key benefits that this clamping innovation brings to your shop.

The 90° angle clamp is made of high quality cast iron and is zinc plated. The spindle, which automatically pivots for an accurate 90° grip, is also copper plated to resist weld spatter. Slotted holes are provided in the base for convenient work bench mounting. For added precision, work surfaces, including base, are milled.

Peddinghaus Anvils are drop forged and produced entirely from high grade steel for maximum durability. The top face is ground and induction hardened to provide a lively surface to work on. These come equipped with a pritchel hole to support the use of various tools. No. 69642 also features an upsetting block.
