TruCut™
PIPE GUIDE

- Ideal marking tool for cutting pipe
- Reusable—quality materials—affordable
- Lasts a lifetime—durable 16 ga. steel
- Assures perfect cuts every time
- No mistakes—saves time and trouble
- Avoids wasted material
- Far saddles/90°/45°/22.5°
- Available for various pipe sizes
- A must for every welder

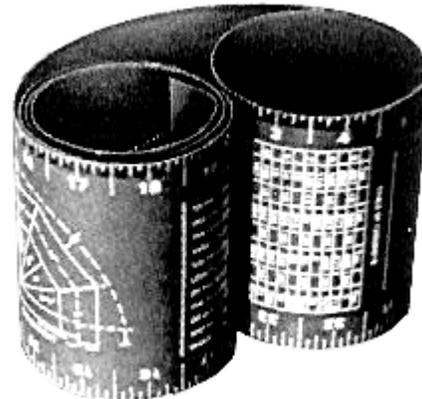

AT last, an inexpensive, reusable marking tool is available for all welders, regardless of the experience level. Made from durable 16 gauge steel with industrial powder coating, TruCut™ Pipe Guides can last a lifetime. Other templates are too heavy, too bulky, too expensive, or disposable. TruCut™ Pipe Guides are a quality, permanent tool. Throw them in your tool box, and use them over and over again.

TruCut™ Pipe Guides assure clean, perfect, and professional cuts each and every time—from saddles to risers to 45 degree corners to 3 piece corners with less time and trouble and no mistakes

Part No.	Description	PRICE
TC238-S	2-3/8" SADDLE	\$16.38 EA
TC238-45	2-3/8" 45-22	\$16.38 EA
TC278-S	2-7/8" SADDLE	\$16.38 EA
TC278-45	2-7/8" 45-22	\$16.38 EA

RAP-AROUND (WRAP-AROUND)

The KCI Welders and Pipe Fitters **Rap-Around** offers many new, exclusive features. First, it is **double ruled** so that both top and bottom surfaces can be used for layouts, and it is never upside down. Secondly, the product is in its own clear plastic tube to protect it between jobs and allow easy identification without fumbling. Third, we are introducing the all new KCI **TUFF-Edge®**, an optional feature that covers the leading ruled edge with a tough, clear vinyl cover. This material is highly abrasion resistant, heat resistant, and adds extra long life to the product by protecting the ruled surface and the edge.

SIZE	PRICE	DESCRIPTION	PIPE SIZE	PART NUMBER
Small	\$4.05 EA	Width 2/2", Length 2'	1 " to 3" pipe	150
Small	\$4.47 EA	With TUFF-Edge®	1 " to 3" pipe	150 TE
