

# **MATERIAL SAFETY DATA SHEET**

## **1. Product and Company Identification**

| Material name                                      | 1620 Anti-spatter  |
|--|--|
| Version #  | 01   |
| Issue date   | 13-February-2014   |
| Revision date                                      | -  |
| Supersedes date                                    | -  |
| CAS #  | Mixture  |
| Product use  | Protection against weld spatter.   |
| Manufacturer information                           |  |
| Manufacturer/Supplier                              | Harris Products Group<br>4501 Quality Place<br>Mason, Ohio 45040 US<br>custservmason@jwharris.com  |
| Telephone number<br>Emergency Telephone<br>Numbers | 513-754-2000<br>1-888-609-1762 (US, Canada, Mexico only)   |
|  | Please quote 333988  |
| 2. Hazards Identification                          |  |
| Physical state                                     | Liquid.  |
| Appearance   | Clear, colorless liquid.   |
| Emergency overview                                 | WARNING  |
|  | May be harmful if swallowed. May cause central nervous system effects. Causes skin and eye irritation. Suspect cancer hazard. May cause damage to the liver and kidneys.   |
| OSHA regulatory status                             | This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).  |
| Potential health effects                           |  |
| Routes of exposure                                 | Inhalation. Ingestion. Skin contact. Eye contact.  |
| Eyes   | Causes eye irritation.   |
| Skin   | Causes skin irritation.  |
| Inhalation   | High vapor concentrations are irritating to the eyes, nose, throat, and lungs. Exposure to high<br>concentrations of vapor or mist may result in CNS effects such as headaches, nausea and<br>narcosis.                |
| Ingestion  | May be harmful if swallowed. May cause damage to mucous membranes in nose, throat, lungs and bronchial system. Breathing product into the lungs during ingestion or vomiting may cause lung injury and possible death. |
| Chronic effects                                    | Prolonged or repeated exposure may cause liver, kidney, and central nervous system damage.   |
| Signs and symptoms                                 | Irritation of eyes and mucous membranes. Skin irritation. Upper respiratory tract irritation.<br>Headaches, dizziness and nausea.  |
| Potential environmental effects                    | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.                     |

## 3. Composition / Information on Ingredients

| CAS #    | Percent |
|----------|---------|
| 75-09-2  | 73 - 84 |
| 124-38-9 | 17      |
|          | 75-09-2 |

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## 4. First Aid Measures

| First aid procedures |  |
|----------------------|--|
| Eye contact          | Immediately flush eyes with plenty of water for at least 15 minutes. Remove any contact lenses and open eyelids wide apart. Get medical attention if irritation develops or persists.        |
| Skin contact         | Immediately flush thoroughly with water for at least 15 minutes. Remove contaminated clothing and shoes. Get medical attention if irritation develops and persists.                          |
| Inhalation           | Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel.<br>Get medical attention if any discomfort continues.                                |
| Ingestion            | Do not induce vomiting. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Never give anything by mouth to an unconscious person. Get medical attention. |
| Notes to physician   | Treat symptomatically. Symptoms may be delayed.  |
| General advice       | Show this safety data sheet to the doctor in attendance.   |

## 5. Fire Fighting Measures

| o. The Fighting measures                                 |  |
|--|--|
| Flammable properties                                     | Material may burn but not ignite readily.  |
| Extinguishing media                                      |  |
| Suitable extinguishing media                             | Dry chemical, foam, carbon dioxide.  |
| Unsuitable extinguishing media                           | Water or foam (may cause frothing).  |
| Protection of firefighters                               |  |
| Specific hazards arising<br>from the chemical            | Heated containers may rupture, explode or be thrown into the air. "Empty" containers may retain residue and can be dangerous. Product is not sensitive to mechanical impact or static discharge. |
| Protective equipment and<br>precautions for firefighters | Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Wear suitable protective equipment. |
| Fire fighting<br>equipment/instructions                  | Containers close to fire should be removed or cooled with water.   |
| Hazardous combustion<br>products                         | Product may decompose upon heating to produce phosgene, halogenated compounds, carbon monoxide, and unidentified organic compounds.  |
|  |  |

### 6. Accidental Release Measures

| Personal precautions      | Ensure adequate ventilation. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Ventilate closed spaces before entering them. Wear protective clothing as described in Section 8 of this MSDS. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. |
|---------------------------|--|
| Environmental precautions | Prevent further leakage or spillage if safe to do so. Do not contaminate water.  |
| Methods for cleaning up   | Collect for salvage or disposal. Collect any released materials with absorbent, non-combustible material into suitable containers. Clean surface thoroughly to remove residual contamination. Should not be released into the environment.   |
| 7 Handling and Storage    |  |

### 7. Handling and Storage

HandlingAvoid inhalation of vapors/spray and contact with skin and eyes. When using, do not eat, drink or<br/>smoke. Wear appropriate personal protective equipment (See Section 8). Observe good industrial<br/>hygiene practices.StorageKeep container tightly closed and in a well-ventilated place. Keep away from incompatible material.<br/>Keep away from food, drink and animal feedingstuffs.

## 8. Exposure Controls / Personal Protection

#### **Occupational exposure limits**

### **US. ACGIH Threshold Limit Values**

| Components                       | Туре | Value     |  |
|----------------------------------|------|-----------|--|
| Carbon dioxide (CAS<br>124-38-9) | STEL | 30000 ppm |  |
|                                  | TWA  | 5000 ppm  |  |
| Methylene chloride (CAS 75-09-2) | TWA  | 50 ppm    |  |

### US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

| Components                                     | Туре                           | Value  |
|--|--------------------------------|--|
| Methylene chloride (CAS<br>75-09-2)            | STEL                           | 125 ppm  |
|  | TWA                            | 25 ppm   |

|                                     |      | 5000 ppm    |  |
| Methylene chloride (CAS<br>75-09-2) | TWA  | 174 mg/m3   |  |
|                                     |      | 50 ppm      |  |

### Mexico. Occupational Exposure Limit Values

| Components                       | Туре   | Value   |
|----------------------------------|--|---|
| Carbon dioxide (CAS<br>124-38-9) | STEL   | 27000 mg/m3   |
|                                  |  | 15000 ppm   |
|                                  | TWA  | 9000 mg/m3  |
|                                  |  | 5000 ppm  |
| Methylene chloride (CAS 75-09-2) | STEL   | 1740 mg/m3  |
| ,                                |  | 500 ppm   |
|                                  | TWA  | 330 mg/m3   |
|                                  |  | 100 ppm   |
| gineering controls               | •  | nimize the risk of inhalation of vapors and mists. Local exhaust eye washing facilities near the workplace are recommended. |
| sonal protective equipment       |  |   |
| Eye / face protection            | Wear safety glasses with side shield   | s (or goggles).   |
| Skin protection                  | Chemical resistant clothing is recommended.  |   |
| Respiratory protection           | If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. Selection and use of respiratory protective equipment should be in |   |

accordance with OSHA General Industry Standard 29 CFR 1910.134; or in Canada with CSA Standard Z94.4. **General hygiene** Always observe good personal hygiene measures, such as washing after handling the material considerations and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

### 9. Physical & Chemical Properties

| Appearance  | Clear, colorless liquid. |
|---|--------------------------|
| Physical state                                    | Liquid.                  |
| Form  | Liquid.                  |
| Color   | Colorless.               |
| Odor  | Characteristic odor.     |
| Odor threshold                                    | Not available.           |
| рН  | Not available.           |
| Vapor pressure                                    | 390 mm Hg                |
| Vapor density                                     | 1.9 (Air = 1)            |
| Boiling point                                     | 104 °F (40 °C)           |
| Melting point/Freezing point                      | Not applicable.          |
| Solubility (water)                                | Soluble in water.        |
| Specific gravity                                  | 1.32 (H2O=1)             |
| Flash point                                       | Not available.           |
| Flammability limits in air,<br>upper, % by volume | Not available.           |
| Flammability limits in air,<br>lower, % by volume | Not available.           |
| Auto-ignition temperature                         | Not available.           |
| Evaporation rate                                  | 14.5 (Butyl acetate = 1) |

## 10. Chemical Stability & Reactivity Information

| Chemical stability                    | Stable under normal temperatures and pressures.   |
|---------------------------------------|---|
| Conditions to avoid                   | Avoid exposing aerosol containers to high temperatures or direct sunlight.                            |
| Incompatible materials                | Acids, alkalis, oxidizing agents, reactive halogens, or reactive metals.                              |
| Hazardous decomposition<br>products   | None under normal temperatures and pressures. In the event of fire: See Section 5.                    |
| Possibility of hazardous<br>reactions | Polymerization is not known to occur under normal temperature and pressures. Not reactive with water. |

## **11. Toxicological Information**

| Toxicological data        |                                       |   |  |
|---------------------------|---------------------------------------|---|--|
| Components                | Species                               | Test Results  |  |
| Methylene chloride (CAS 7 | 5-09-2)                               |   |  |
| Acute                     |                                       |   |  |
| Oral                      |                                       |   |  |
| LD50                      | Rat                                   | 1600 mg/kg  |  |
| Sensitization             | Not a skin sensitizer.                |   |  |
| Acute effects             |                                       | llowed. Exposure to high concentrations of vapor or mist may result in CNS ches, nausea and narcosis. |  |
| Local effects             | Components of the pro<br>irritation.  | oduct may be absorbed into the body through the skin. Causes skin and eye                             |  |
| Chronic effects           |                                       | e to high concentrations may cause kidney and liver damage.   |  |
| Carcinogenicity           | Suspect cancer hazard                 | d - may cause cancer.   |  |
| ACGIH Carcinogens         |                                       |   |  |
